

Quick Guide to the online shop

An introductory guide for users of the Bernd Kraft online shop

Getting started and overview

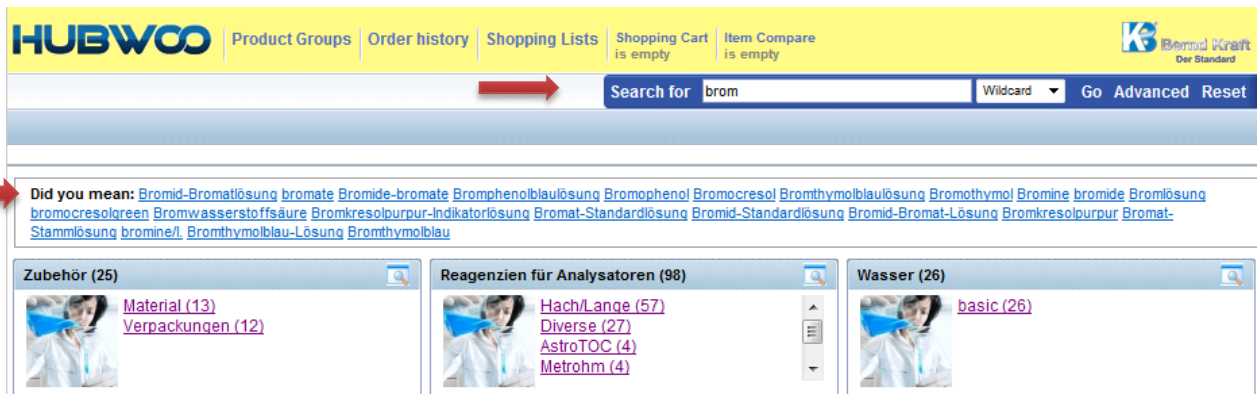

The screenshot shows the Bernd Kraft online shop interface. At the top, there is a yellow navigation bar with the HUBWOO logo and links for Product Groups, Order history, Shopping Lists, Shopping Cart (is empty), and Item Compare (is empty). A search bar is located below the navigation bar, with a 'Search for' field, a 'Similarity' dropdown, and buttons for 'Go', 'Advanced', and 'Reset'. The main content area is a grid of product category tiles, each featuring a small image of a person and a list of sub-categories with their respective product counts.

Category	Sub-categories
Zubehör (25)	Material (13), Verpackungen (12)
Reagenzien für Analysatoren (98)	Hach/Lange (57), Diverse (27), AstroTOC (4), Metrohm (4)
Wasser (26)	basic (26)
Sonstiges (23)	basic (23)
Ätzmittel (49)	basic (49)
Indikatoren (202)	flüssig (178), fest (24)
Pufferlösungen (449)	20°C (279), 25°C (105), Diverse (64), Acetat (1)
Lösungen (2134)	Diverse (1441), Silbernitrat (122), Ammoniak (105), Kaliumchlorid (72)
Laugen (460)	Natronlauge (317), Kalilauge (143)
Säuren (1197)	Salzsäure (345), Schwefelsäure (273), Salpetersäure (134), Essigsäure (107)
Lösemittel (553)	basic (479), Lösemittel / Wasser-Gemisch (46), Lösemittelgemische (15), Lösemittel / Säuren-Gemisch (13)
Standards (762)	ICP (153), IC / Anionen (147), Diverse (125), AAS (110)
Feststoff (1204)	basic (1193), Tablette (7), Gemische (4)

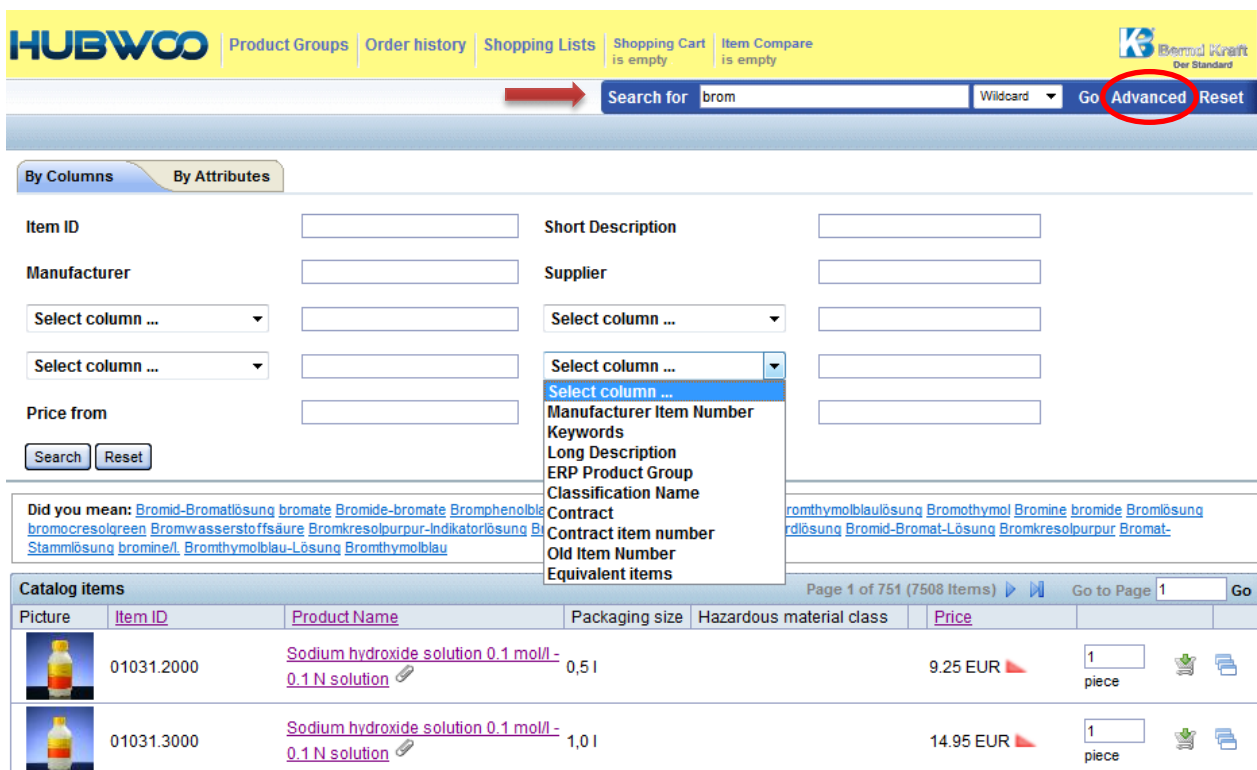

- After registering with the Bernd Kraft GmbH online shop, an overview of the various product groups is displayed. The figure shown after a group name indicates the number of products in the category concerned.
- The menu bar at the top provides the following options:
 - Product Groups: overview of all product groups (default view after login).
 - Order History: your past orders, shown in chronological order.
 - Shopping Cart: your current shopping cart for this session.
 - Item Compare: function for comparing two or more items.

Advanced search and filter functions

The screenshot shows the HUBWOO website's search interface. The search bar contains the text 'brom'. Below the search bar, there is a 'Did you mean' section with several suggested search terms. Below that, there are three main product categories: 'Zubehör (25)', 'Reagenzien für Analysatoren (98)', and 'Wasser (26)'. Each category has a sub-menu with further options.

- The integral autocomplete function proposes suitable search terms for available items and their groups as soon as you begin typing in the search field.

The screenshot shows the HUBWOO website's search interface with advanced search filters. The search bar contains the text 'brom'. The 'Advanced' button is circled in red. Below the search bar, there are two tabs: 'By Columns' and 'By Attributes'. The 'By Columns' tab is active, showing a grid of filters for Item ID, Manufacturer, Short Description, Supplier, Price from, etc. A dropdown menu is open for the 'Select column ...' filter, showing options like 'Manufacturer Item Number', 'Keywords', 'Long Description', etc. Below the filters, there is a 'Did you mean' section and a 'Catalog items' table.

Picture	Item ID	Product Name	Packaging size	Hazardous material class	Price	Quantity	Unit
	01031.2000	Sodium hydroxide solution 0.1 mol/l - 0.1 N solution	0,5 l		9.25 EUR	1	piece
	01031.3000	Sodium hydroxide solution 0.1 mol/l - 0.1 N solution	1,0 l		14.95 EUR	1	piece

- Use the Advanced search function to narrow down your search.
- The filters provided for available columns assist you in narrowing down your search.

Search for Wildcard Default Wildcard Similarity Go Advanced Reset

Category Selection
[Diverse \(65\)](#)
[flüssig \(39\)](#)
[basic \(28\)](#)
[IC / Anionen \(16\)](#)
[fest \(9\)](#)
[Borsäure \(4\)](#)

Manufacturer Selection
[Bernd Kraft \(185\)](#)

Supplier Selection
[Bernd Kraft \(185\)](#)

Price Selection
[between 10 and 50 \(116\)](#)
[between 50 and 250 \(65\)](#)
[between 250 and 1000 \(4\)](#)

- Select a suitable search mode in the dialog next to the search field. A wildcard search generally returns more hits than a default search.
- Before performing a new search, check the filters used and delete them if necessary in order to increase the search radius.

- Should you wish to add further items to your order for which you know the required item numbers, you can place them directly in the shopping cart: just click on the "Direct order" field at the bottom left.

Importing a shopping cart or shopping list

HUBWOO Product Groups | Order history | Shopping Lists | Shopping Cart is empty | Item Compare is empty

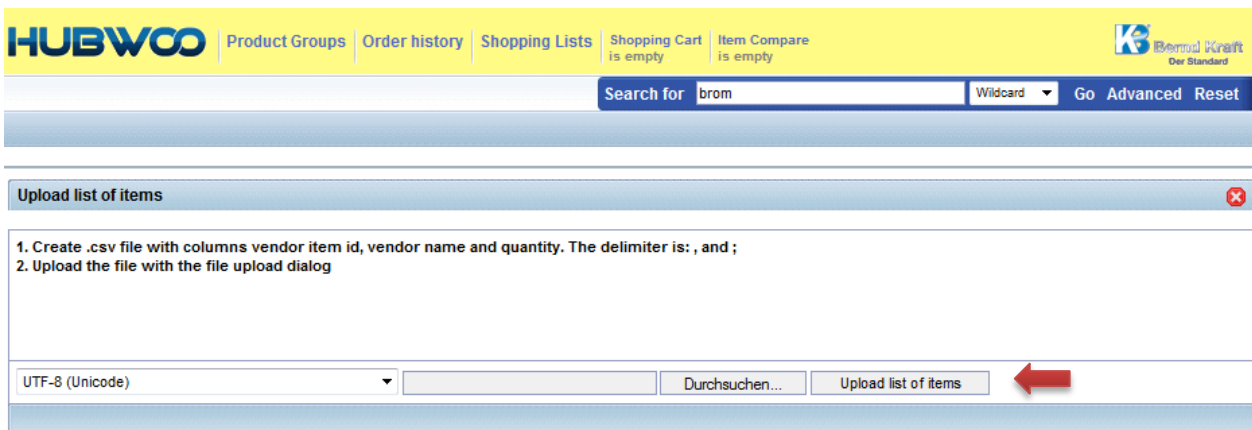

Search for Wildcard Go Advanced Reset

Shopping Cart

Product	Content Units per Order Units	Price	Total Price	Remove
No items in shopping cart				

Direct order

- To begin an import, enter your shopping cart and click on the "Upload list of items" button.

HUBWOO Product Groups | Order history | Shopping Lists | Shopping Cart is empty | Item Compare is empty

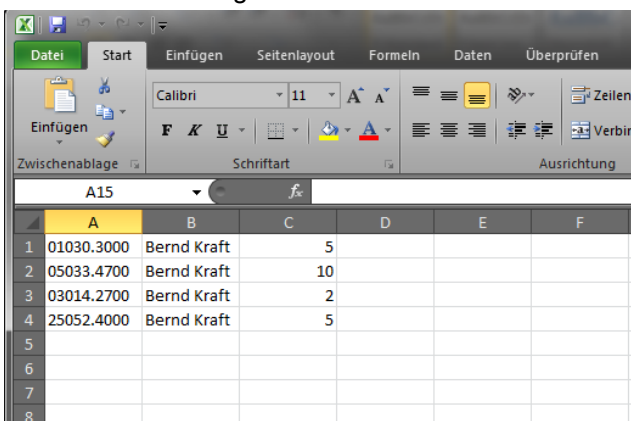

Search for Wildcard Go Advanced Reset

Upload list of items

1. Create .csv file with columns vendor item id, vendor name and quantity. The delimiter is: , and ;
2. Upload the file with the file upload dialog

UTF-8 (Unicode)

- The online shop offers you the option of using a CSV file of your own to fill your shopping cart or to generate a shopping list. To create such a file, download our sample Excel spreadsheet, which has the following structure:

	A	B	C	D	E	F
1	01030.3000	Bernd Kraft	5			
2	05033.4700	Bernd Kraft	10			
3	03014.2700	Bernd Kraft	2			
4	25052.4000	Bernd Kraft	5			
5						
6						
7						
8						

- Proceed as follows:
 - Open the sample file in Microsoft Excel.
 - Enter the desired item numbers in the first column and the corresponding quantities in the third column.
 - **Important:** use the supplier name in the second column for all subsequent lines.
 - Save the file in CSV (comma-separated value) format with the filename of your choice.
 - In the dialog for uploading the CSV file, click on "Browse", then select the file you have just saved.
 - Click on "Upload list of items".
 - The shop now checks your items, after which you can transfer all valid items to the shopping cart, and save them in the form of a shopping list if you wish.

IMPORTANT: the CSV file generated by Microsoft Excel uses semicolons as delimiters. The online shop recognizes these without difficulty; there is no need to use commas as delimiters. Do not use column headers, as they will be interpreted as invalid products.
